 (here in short: **CBES Community**)

If it is to Be - It is Up to Me

ENG:

- **What is the most important to Better your Life?**
 - ❖ **Want Money → Change Thinking !!!**
 - ❖ **If you want things change → You first have to change.**
 - ❖ **If you want to have your life Better → You first have to get Better.**
 - ❖ **If you want something you never had → You first have to do what you've never done.**
 - **Then just go and do what you have to do. (Go do it)**
 - **Also, you must have a Plan.**
 - ❖ **To have what you WANT → You have to have DIFFERENT KNOWLEDGE and DIFFERENT SKILLS.**
 - ❖ **To have what you WANT → You have to EARN and MAKE money in DIFFERENT WAY.**
 - ❖ **To have Better Life and Future, including Finances → You MUST Honestly Solicit and Change first YOURSELF.**
 - **You must FIGHT for your Good Financial Future and Life and know HOW.**
 - ❖ **If you want to Make MORE money, You have to know MORE about money and the System. True?**
 - ❖ **Others have much better lives → Why Can't You?**
 - ❖ **If you do nothing – NOTHING will change.**

Your Mind is a Shrine for your Thoughts.
 Use it Very Wisely since... You Live as you Think.

Hard financial and our lifestyle degradation - times are here, **and much harder are coming**. That is: constantly growing and tripling prices, doubling taxes on everything (stealing of your money), replacement of jobs to less and less paying ones, cost of everything going constantly up, and more of economic decay and chaos and irreversible losses - caused by people from our Gov. All of these leads straight to the economic **Depression** and soon most people won't be able to 'tie ends' to just make living from day-to-day – most likely including us in that too - if we have not reorganized this on time. And why has it been happening?

The simplest answer to that question is another question:

Who caused OUR (Yours and Mine to be unfortunately totally precise) debt of **\$35 Trillion** – the biggest and **beyond any horizons of imagination** by its size (check on Google – 'How big is \$1 Trillion dollars' and you won't believe how big it is and now how about 35 times more?) and in the history of all humanity? **Who has done that and Why? Where is the money? Why, why, why has this been happening?** You can find the answers – they are out there.

The reason of that in general is the **real** structure of functioning and in managing of our country, its finances and our lives by people from our Gov. and in this what those people really do and how and by what methods they steal/spend/redirect to their pockets public money and that has its own reason too - why. A lot more can be said here.

In reference to this situation, one could ask him/her-self:

- Do I feel or see also oncoming very difficult times?
- Am I looking for countermeasures to 'stay on the surface' or perhaps even grow?
- Do I think that I can handle what we have and will just by myself and is it the easiest way?
- What are my current best solutions for myself to what's going on and coming?

On my end I found only one working solution as the best available.

This is to organize and grow-by-informing - as the best response to this situation – about our own self-supporting Community - **CBES Community of Mutual Support & Collaboration / Growth & Solutions A Platform/Idea for: Better Lifestyle – Better Income – Easier Handling – Lower Costs – Connecting of Needs and Offerings**SM.

This approach is able to:

- protect and defend us much easier or at all against what is coming and will.
- support our own basic needs and important to everyone their own causes to make them happen.
- have a working chance to realize/achieve what is not achievable singularly.
- make all easier in remedying against growing on-purpose created difficulties and hardships.
- Provide assurance that there is someone out there that can collaboratively 'extend a hand'.
- make our lives simply – more normal or just manageable and: much easier, much less stressful, much more secure and much more pleasant.

Are you also looking for something like the **Community** approach where one can look for much easier solutions to your: **Current and Future: Needs, Problems, Difficulties, Challenges, Plans, Aspirations**, (sometimes long unmet) **Dreams, Important Causes or Matters** or perhaps **Growth Interests/Desire or its Continuation** or other **Interests or Matters of Importance**?

If your answer is or will be 'YES' – please consider this and other attachments **rather deeply** (and proactively as the best) since singular handling of our matters is and will become increasingly more difficult or impossible to handle, but can be much more or at all manageable by the **Community** approach.

Please know that there is much more to know of which we will be taking about it if need be or interests will emerge. Please think about the content of the attachments and learn about REAL reasons of our economy decay and soon collapse and what to do with that to just live normally. Please **think then about your Current and Future: Needs, Problems, Difficulties, Challenges, Plans, Aspirations**, (sometimes long unmet) **Dreams, Important Causes or Matters** or perhaps **Growth Interests/Desire or its Continuation** or other **Interests or Matters of Importance** and **the power of TOGETHERSM**. Although I would like, I can't call many people many times to remind about this since it is physically not possible. In the meantime I have to work for living too. **My main function here then is:** to inform about our **CBES Community**, coordinate: efforts of its functioning, submitted needs and requests, and engage in specific areas that provide support for participants. **Your part** - if you are looking for this kind of Approach and Co-Support - **is first - to call, introduce yourself, present your interests/needs and your capabilities and offers**. This is the base for good **COLLABORATION**. **All starts though from your** phone call, active communication – and from your proactivity before something happens or to make matters materialize for yourself and others.

The oncoming times are '**unforgivable to our current lifestyles**' if we all don't do all **what is right** and **in a NEW way, however through the Community means - we all can accomplish much more or at all** in what we need, what is important to us and we will need – **just by supporting one another**. **This is the most affective functioning in these and oncoming super difficult times – for us not to 'them'**. **You are then invited to call and also this way to begin a better way of living for current and oncoming times for yourself too**. **At this stage - now - there is nothing more beyond what has been already said - than sharing this news about existence of our CBES Community, learning about ourselves and expecting and providing Mutual Support**. **It is the most effective approach for the current and oncoming times**. **Call then for supporting yourself and others who in turn will support you – especially if you find yourself in a big need.**

Wishing ALSO You success,
