CBES Community

Value of your Standard of Living to You in US Dollars...

CBES – **C**omplex **B**usiness **E**xpansion & **S**ervices, Inc.

CBES Community of Mutual Support & Collaboration / Growth & Solutions

A Platform/Idea for: Better Lifestyle – Better Income – Easier Handling – Lower Costs – Connecting of Needs and OfferingsSM

(here in short: **CBES Community**)

ENG:

If it is to Be - It is Up to Me

● What is the most important to Better your Life?

- ❖ **Want Money → Change Thinking !!!**
- ❖ **If you want things change → You first have to change.**
- ❖ **If you want to have your life Better → You first have to get Better.**
- ❖ **If you want something you never had → You first have to do what you've never done.**
 - **Then just go and do what you have to do. (Go do it)**
 - **Also, you must have a Plan.**
- ❖ **To have what you WANT → You have to have DIFFERENT KNOWLEDGE and DIFFERENT SKILLS.**
- ❖ **To have what you WANT → You have to EARN and MAKE money in DIFFERENT WAY.**
- ❖ **To have Better Life and Future, including Finances → You MUST Honestly Solicit and Change first YOURSELF.**
 - **You must FIGHT for your Good Financial Future and Life and know HOW.**
- ❖ **If you want to Make MORE money, You have to know MORE about money and the System. True?**
- ❖ **Others have much better lives → Why Can't You?**
- ❖ **If you do nothing – NOTHING will change.**

Your Mind is a Shrine for your Thoughts.

Use it Very Wisely since... You Live as you Think.

**Do you understand the System that owns you -
so you know how to preserve your Standard of Living or perhaps improve it?
How much of your support in US Dollars is worth this to you?**

What support in US Dollars would you offer to **your CBES Community to
be able to be supported by that CBES Community?**

Why Self-Supporting is now of the highest priority?
The following is based on many researches and own analysis.

Don't Wait - doing nothing.

- ❖ **It is almost impossible if not straight impossible** to decide by 'Everyday People' like you and me - how they can live their lives per desire of their way of living in the System we are all in and especially in which we will find ourselves soon.
- ❖ If to think by means of Business Models and Modeling – the model represented and being applied by people from within the Gov. for themselves and on us is clearly the best – if it comes to its structure and methods serving them – yet your position in it is to be only a slave through the means of owning you through the legal system, regulations, financial system, costs of fees and taxes (stealing of your money), in 70% work for FREE and prison punishment means – that's the bare reality which is far from its wide-open advertising – because of obvious reasons.
- ❖ **There is PROFOUND knowledge of reasons and methods** in this space that decides on how you live and will be living in the world '**as you are told to obey**' and how to operate **in this SNARE**.
- ❖ **One of the most efficient and co-existing methods** to the Current and coming NEW System is to be a part of or become a Participant of - CBES Community which is meant to serve as a PLATFORM for, to coordinate and provide as best as possible solutions based on available capabilities – in support for your **Current and Future: Needs, Problems, Difficulties, Challenges, Plans, Aspirations, (sometimes long unmet) Dreams, Important Causes or Matters or perhaps Growth Interests/Desire or its Continuation or Other Interests** – which as you see or will – is **PRICELESS** especially in the face of PROFOUND changes in oncoming functioning of the world, in particular of the US where you live and your slave-level position is being prepared as we speak! Through extensive studies – it can be clearly understood.
- ❖ **To see value of CBES Community** from '**How the System really Works**' perspective, which is of PARAMOUNT Importance to your Standard of Living and Lifestyle – a consultation can be requested – and I think – the value of that understanding is equal to the value of your desired Lifestyle value – so perhaps knowing that is worth your trouble.
- ❖ **CBES Community is not financed by anyone so** it does not have to respond to the orders of financing parties – so it can focus purely on the GOOD of its Participants. **If it comes to value that can be obtained – it may be PRICELESS** by even one connection or one expression/thought/word not mentioning about full-scale

support. That one received connection or word or thought or support **if it is REALLY needed** can be of **BORDERLESS** value saving you and your living environment. Obviously, not waiting to the last moment is much better – **what is worth to remember**. We all being here are here for that very reason and for more by just working **TogetherSM**. Also, things cannot materialize just by themselves. A minimum of Administrative and Organizational structure needs to be built and maintained – otherwise – nothing without that can exist. My contribution to that is more than 7 years of full-time 1-person work for FREE and a couple of hundred of thousands of dollars (of 2015 value) spent for infrastructure and also as a result of that – quite modest for that whole period life style. I am not sure if there are many people who would like to take this path for good of ALL. Now please imagine if we have: a Community of a few thousands people, 50 phone calls every day asking for something, a need to discuss each matter for about 15 min (what makes up already more than 12 hours a day - just for that), activities for preparation and execution of support, cost of 2 computers, some cost of software, of some software development (like to create or buy a data base), possible cost of Call Center subscription at minimum (to respond to those phone calls immediately) and let's say a need for 1 or 2 people in addition to me for supporting that whole effort – that focuses **ONLY** on callers' wellbeing – which by itself is **UNPRESEDENTED** as caring for someone's Standard of Living or Lifestyle – by the way – and then imagine minimum cost of that. How about of multiple email and attachment creation, translation and managing this in many structures of keeping information and sending them and follow ups time for notifying people about CBES Community so then we can have enough of internal expertise to serve us all and be able to trust that – what we count for - true? These are just few examples. On the other hand – **doesn't the value of our CBES Community surpass many, many times our efforts to have that structure existing and working?** Taking under consideration what already is and what is coming, my understanding cannot be more in agreement with this.

- ❖ **Here are three ways of self-supporting on the bases of moral decision** for supporting this very valuable platform that serves our better living or for just its existence – which is even more important:
 - **Contribute** \$0 per quarter and expect others working for your benefit for FREE which will be destructive to their lifestyle.
 - **Provide** quarterly monetary Operational Support for the purpose of existence of our CBES Community, knowing - that if only possible, your Important Causes will be heard and truly cared for to the max. capabilities of the CBES Community.
 - **And in addition, support** this movement (from the perspective of '**DOING THE RIGHT THING**' and **your moral decision of supporting collaboration of 'ALL for All and in that yourself'** Participants) **by contributing** (as we all do) – which will be used for covering operational costs **ONLY**. With this, if a need will be to earn or make more money (not always work for that is necessary) – which can be one of the supports needed, this **contribution** eventually will be financed by externally generated by that revenue honestly split among working together parties. **But we All MUST keep the structure and its operations alive** to be able to benefit from it in many ways per our particular needs or objectives that are just very important to each of us. And if you wish – your **contribution** or support for this method of self-remedy can be recognized on CBES website as an example of **LEADERSHIP** in understanding **RIGHT SOLUTIONS** – which through this recognition will be creating (as it somehow always works this way) much higher returns for You – not even initially knowing from where – because that's how **GOOD** decisions pay off – what is worth studying too.
- ❖ **Our CBES Community has LIFE-SAVING VALUE** for all its Participants – so most likely supporting this effort makes sense for each of us and every one of us. **Now, after reading all and taking under consideration many (not all yet) variables - there comes time for your decision on – WHAT IS RIGHT TO DO.**

Wishing **ALSO** You success,
